WorldRAM® Pallet Rack Column Protection

The patented hybrid design of rubber elastomers and steel provides the superior impact absorption of rubber and the durability of steel into a single unit. The specially formulated, highly elastic compound coupled with a U-shaped steel insert reduces peak stress in a column by 72%. WorldRAM is the world's best-in-class pallet rack protection solution and outperforms all other poly/plastic or steel designs.

FEATURES AND BENEFITS:

- 12" tall x 5½" wide
- Fits roll-formed or structural steel columns
- Easy installation, no hardware required
- Absorbs more impact energy and force than other column protectors
- Protects against both front and side impacts
- Fits all 3" wide and up to 3" deep pallet rack columns
- Specifically formulated rubber compound provides maximum impact-absorbing qualities
- Steel reinforcement withstands multiple impacts with no loss of performance

- Can be stacked to increase protection height
- Safety yellow tape* can be added for increased visibility
- Sits on top of footplate — allowing easy installation over seismic footplates
- Safety yellow velcro straps* can be added for maximum visibility
- Rubber adapters are available for 1⅝" deep or structural pallet rack columns

**Sold separately*
